Trademarks

The purpose of these guidelines is to assist you in complying with the legal requirements of Twisted Pair Solutions, Inc. (TPS) regarding trademark use.

General Trademark Guidelines

You may use Twisted Pair Solutions (TPS) trademarks (including logos or taglines) to identify TPS products, services, and programs on all marketing and sales collaterals (such as, but not limited to, price quotes, datasheets, presentations, brochures, advertising, tradeshow materials, web sites) provided you adhere to the following guidelines:

1. You may not incorporate or include TPS trademarks in your company name, product name, domain name, or in the name of your service.
2. Your product name may not be confusingly similar to any of TPS\' trademarks.
3. Your use may not be obscene or pornographic, and may not be disparaging, defamatory, or libelous to TPS, any of its products, or any other person or entity.
4. Your use may not directly or indirectly imply TPS\' sponsorship, affiliation, or endorsement of your product or service.
5. Reference to the TPS trademark may not be the most prominent visual element on your product or service. Your company name and/or logo, your product or service name, and your graphics should be significantly larger than the reference to TPS\' trademark.
6. If your use includes references to a TPS product, the full name of the product must be referenced at the first and most prominent mention (such as WAVE®).
7. You may not shorten or abbreviate any of TPS\' trademarks. Always spell and capitalize TPS\' trademarks exactly as they appear below.
8. You need to include the following trademark attribution statement: "[List of marks used in alphabetical order] are either registered trademarks or trademarks of Twisted Pair Solutions, Inc." For example: WAVE® is a registered trademark of Twisted Pair Solutions, Inc.
9. These guidelines are provided for guidance only. TPS reserves the right to require revised wording depending upon the particular circumstances relating to a specific product.

Trademarks
